- Expertise: Hyvä, WCAG & Performance

SUMMARY

Strategic **Senior Frontend Engineer & Team Lead** with over 13 years of expertise in the Magento ecosystem (M1/M2). Specialist in high-performance architectures using **Hyvä Themes, Alpine.js, and Tailwind CSS**. Proven track record of leading cross-functional teams of up to 12 members to deliver complex enterprise solutions. Expert in bridging the gap between business requirements and technical excellence, focusing on **Core Web Vitals optimization** and **WCAG compliance**. Leveraging **AI-augmented workflows** (Cursor, Claude) to accelerate development cycles and reduce time-to-market without compromising code quality.

CORE SKILLS

- **Magento Ecosystem:** Magento 2 (CE, EE, Cloud, headless), **Hyvä Themes Expert**, Checkout Architecture, UI Components, XML Layouts, Knockout.js, RequireJS.
- **Modern Frontend:** JavaScript (ES6+), **Alpine.js, Tailwind CSS**, Advanced CSS/SCSS (BEM), Semantic HTML5, Responsive Design.
- **Engineering Excellence: Performance Engineering (Lighthouse/Web Vitals)**, Accessibility (WCAG 2.1), Cross-browser Compatibility, Unit/Integration Testing.
- **AI & DX (Developer Experience): AI-Augmented Development** (Cursor, Claude Code, Ollama), WSL2 Environment Optimization, Docker, Linux/Bash Scripting.
- **Leadership & Workflow:** Team Leadership & Mentoring, Technical Project Orchestration, Agile/Scrum, Jira/Confluence, GitFlow.
- **Languages:** English (Upper-Intermediate, B2 — strong technical communication), Ukrainian (Native).

Professional Experience

06/2018 – Present

IT Delight, *Team Lead / Senior Frontend Developer*

- Key Achievement:** Orchestrated the full-cycle migration to **Hyvä Themes**, resulting in 90+ Google PageSpeed scores for enterprise clients.
- Technical Impact:** Developed custom Alpine.js components and integrated them with Magento 2 backend via GraphQL and REST APIs.
- Complexity:** Built an "on-the-fly" JS interceptor to modify 3rd-party tracking/widget scripts without access to their source code.
- Management:** Streamlined communication between PMs, QA, and Dev teams using Jira/Confluence, reducing time-to-market for new features via AI-augmented workflows.
- Key Deliverables:**
- **Eco-friendly Multi-store (M2 EE + Hyvä):** Led frontend architecture and integrated 3rd-party APIs for real-time inventory & shipping.
 - **International Boats Marketplace (M2 EE):** Audited and refactored legacy modules; redesigned UI components for a premium high-traffic platform.
 - **Auto Parts Finder:** Engineered an advanced AJAX-based filtering system and custom SQL queries to optimize high-volume database performance.
 - **Pet Food Platform (M2 + React):** Developed complex configuration logic and ensured seamless data exchange between Magento and React.

11/2017 – 04/2018	New Amsterdam AB, Frontend Developer ↗ Focus: Developed and supported large-scale Magento 2 e-commerce stores for the Nordic market. Key Contribution: Executed deep M2 Checkout customizations and implemented pixel-perfect UI from Zeplin/Sketch designs. Technical Tasks: Built responsive components using LESS and RequireJS, focusing on high-load performance optimization for seasonal sales events.
06/2017 – 10/2017	MageDirect, Frontend Developer ↗ Focus: Magento 2 theme development for international clients in New Zealand and the USA. Key Tasks: Developed dynamic product grids and custom customer dashboards using Knockout.js and RequireJS. Complexity: Successfully overrode core Magento frontend functionality and customized 3rd-party modules to meet strict business requirements.
08/2016 – 02/2017	BPO Nextdoor (Edvantis Group), Magento Frontend Developer ↗ Role: Customized Magento 1 and 2 stores with a focus on theme rebuilding. Technical Impact: Managed massive data migrations (products/attributes) using custom PHP scripts. Key Achievement: Rebuilt legacy themes into fully responsive, mobile-first layouts, significantly improving mobile performance metrics.
03/2015 – 08/2016	Zen Web-studio, Frontend Developer ↗ Focus: End-to-end development of e-commerce sites on OpenCart and Kirby CMS. Technical Tasks: Created high-conversion landing pages and integrated interactive UI elements using jQuery and AJAX. Compatibility: Managed cross-browser compatibility and legacy browser support for commercial projects.
11/2012 – 08/2015	Creative Web Studios, Frontend Developer ↗ Role: Full-cycle development for WordPress and Magento projects in the local market. Technical Tasks: Provided technical support, redesigned legacy UIs, and implemented new features based on direct client business requirements.

Education

2012 – 2014	Bachelor of Technical Sciences, Ukrainian Academy of Printing • Department: Computer Printing Engineering • Specialization: Automation and Computer Integrated Technologies
2007 – 2011	Junior Specialist, National University "Lviv Polytechnic" • Focus: Computer Maintenance, Intelligent Systems, and Networks • Core Studies: Hardware maintenance, network administration, and software foundations.

Beyond Coding

Ultimate Tech Geek: Automation addict: custom scripts, AI agents, self-hosted home labs, and IoT (ESP32/RPi). Deeply into Linux distros, and PC optimization. • **Hardcore Gaming & SIMs:** PC building & VR enthusiast, in love with the Local & Cloud Gaming and handheld consoles. Deep into Mil-Sim tactical shooters, flight and driving SIMs. Exploring Game Dev with UE5 in my spare time. • **Active Lifestyle & Gear:** Passionate about Airsoft and tactical Mil-Sim. Learning electric guitar (progress is slow, but Rocksmith is fun to explore though). Enduro & ATV enthusiast.
